

To Whom It May Concern!

This is to certify that Infogistic (Pvt.) Limited has provided 'Network and Infrastructure Penetration Testing Services' to AutoSoft Dynamics (Pvt.) Limited in line with requirements against ISO 27001:2013 standard during January 2015.

We've found the Infogistic team to be very professional and efficient in terms of their resource skills and capabilities. They were well organized and had necessary expertise to handle all of the issues / queries raised during the activity.

We would happily recommend them for similar network consultancy services and shall also look forward to working with them again in the future.

Sadia Khan

Best Regards,

Sadia Khan
Chief Operation Officer,
AutoSoft Dynamics (Pvt.) Limited
